DETAILED ACTION

The following is a response to the amendment received on April 23, 2004 which has been entered.

Response to Amendment

Claims 1-24 are pending in the application.

-The objection to the specification and abstract has been withdrawn due to applicant amending both to correct typographical and grammar errors as indicated in the office action mailed on January 23, 2004.

-The 112 2nd rejection of claims 1-24 has been withdrawn due to applicant amending claims 1, 7, 18, 19-21 and 23 to correct lack of antecedent basis of some limitations in the claims.

Allowable Subject Matter

Claims 1-24 are allowed. The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose or render obvious a motivation to provide for:

- a drive system for motor vehicles having a main drive train with an engine, a driving clutch, a transmission and at least one drive axle, a secondary drive train with a secondary assembly drive, secondary assemblies and a starter generator wherein the secondary assembly drive and the starter generator can be coupled to the drive axle individually or jointly, with or without the engine driving the vehicle in combination with the secondary drive train being capable of being coupled to the main drive train and having its secondary assembly drive capable of being coupled to the starter generator.

Art Unit: 3681

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
